

FEAR OF CHILDBIRTH SURVEY

Are You Pregnant?
***Help Researchers Learn More About
Women's Childbirth Concerns!***

Researchers in the UBC Department of Psychiatry are conducting a study of pregnant women's fears and concerns about childbirth

***If you are pregnant and 18 years or older, you are
eligible to participate***

The survey takes 15 to 20 minutes to complete. Survey questions ask about your background, your reproductive history and current pregnancy, your mood, and any childbirth or medically related concerns you may have.
